Workshop on Open Networked Airborne Computing Platform
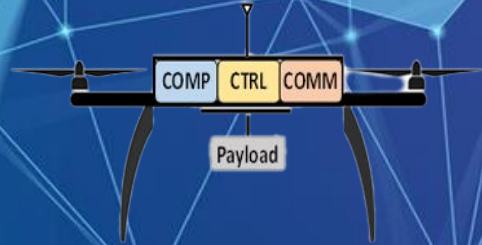

You are invited to join a workshop focusing on the Enhanced Open Networked Airborne Computing Platform. This platform is the result of a collaborative effort of multiple universities, led by the University of Texas at Arlington, the University of North Texas, the University of Puerto Rico, and the San Diego State University. The workshop is designed to offer:

- Training on the technical details of the platform, usage of the platform, and development of new applications over the platform.

- Hands-on experience with the structure of the platform, the interface between the modular components, airborne computing services, and integrated control, communication, and computing resources.

- Discussions about use cases and future collaboration plans.

Location	University of Texas at Arlington Research Institute (UTARI) 7300 Jack Newell Blvd S, Fort Worth, TX 76118
Date	October 27, 2023
Contacts	Dr. Yan Wan (yan.wan@uta.edu) Dr. Ahmet Taha Koru (ahmet.koru@uta.edu)
Registration	Registration is free. Please scan the QR code or visit https://forms.gle/3uJjBw85vAYjqgLa7.
